This version of The Paranormalist's Halloween Photo Hunt is meant for personal use, by small groups of people, playing in a confined environment, for a specified period of time. (Think: 2-3 hours, within walking distance of a small-town courthouse, at an autumn fair, or in and around a mall.) Another version of the hunt, more suited to playing over longer periods of time and a larger territory, with more challenging prompts, is also available.

Photos from EITHER or BOTH photo hunts can be submitted for enshrinement in a special gallery at the Paranormalist blog, as long as they meet the gallery's guidelines, including the protection of privacy rules, which are available for review at the hunt's home page.
